Everyone remembers woodshop! Students use a variety of tools. They learn • **safety techniques** • **design** • **assembly** • **spatial perception** • **concentration** • **small motor skills** • **to follow directions** • **to think for themselves**. Participants feel a sense of accomplishment and pride as they craft their project and watch it develop into something recognizable. During the process they are both learning and having fun. We teach basic woodshop skills with a focus on **safety**. The knowledge gained in this course will be useful to them throughout their lives.
