

Guidelines for Woodshop Parent Volunteers

Like most classes that have parent volunteers during the regular school day (in elementary school), it's a positive experience for all, and we offer this option also in the woodshop class.

As we do offer a discount for being the volunteer we follow some basic guidelines.

Volunteers are asked to:

- Help with all the children and not only their own child.
- Help the children, not do the project for them!
- Arrive 5 minutes before the start of class to learn any new techniques that will be learned that day and help with the set up.
- Stay 5 to 10 minutes after the class ends to help with clean up and ensure children get to where they need to be (like daycare).
- To let us know ahead of time if they will not be at the class. You can call **805-523-2420** or email **info@designitinwood.com**

Payment in full, is required before the classes begin. A refund is given after the session and will depend on how many classes the volunteer has attended.

An extra pair of hands is always great.

We can not offer a refund to any parents if the class size is less than 12, however should any parent want to come and have a look or hang around – they are welcome.
